

Introduction of Okinawa Open Laboratory

November 17th, 2015

Harumi Ikeda
Okinawa Open Laboratory

Okinawa Open Laboratory (OOL)

■ Research Institute

- Founded in May 2013 in Okinawa

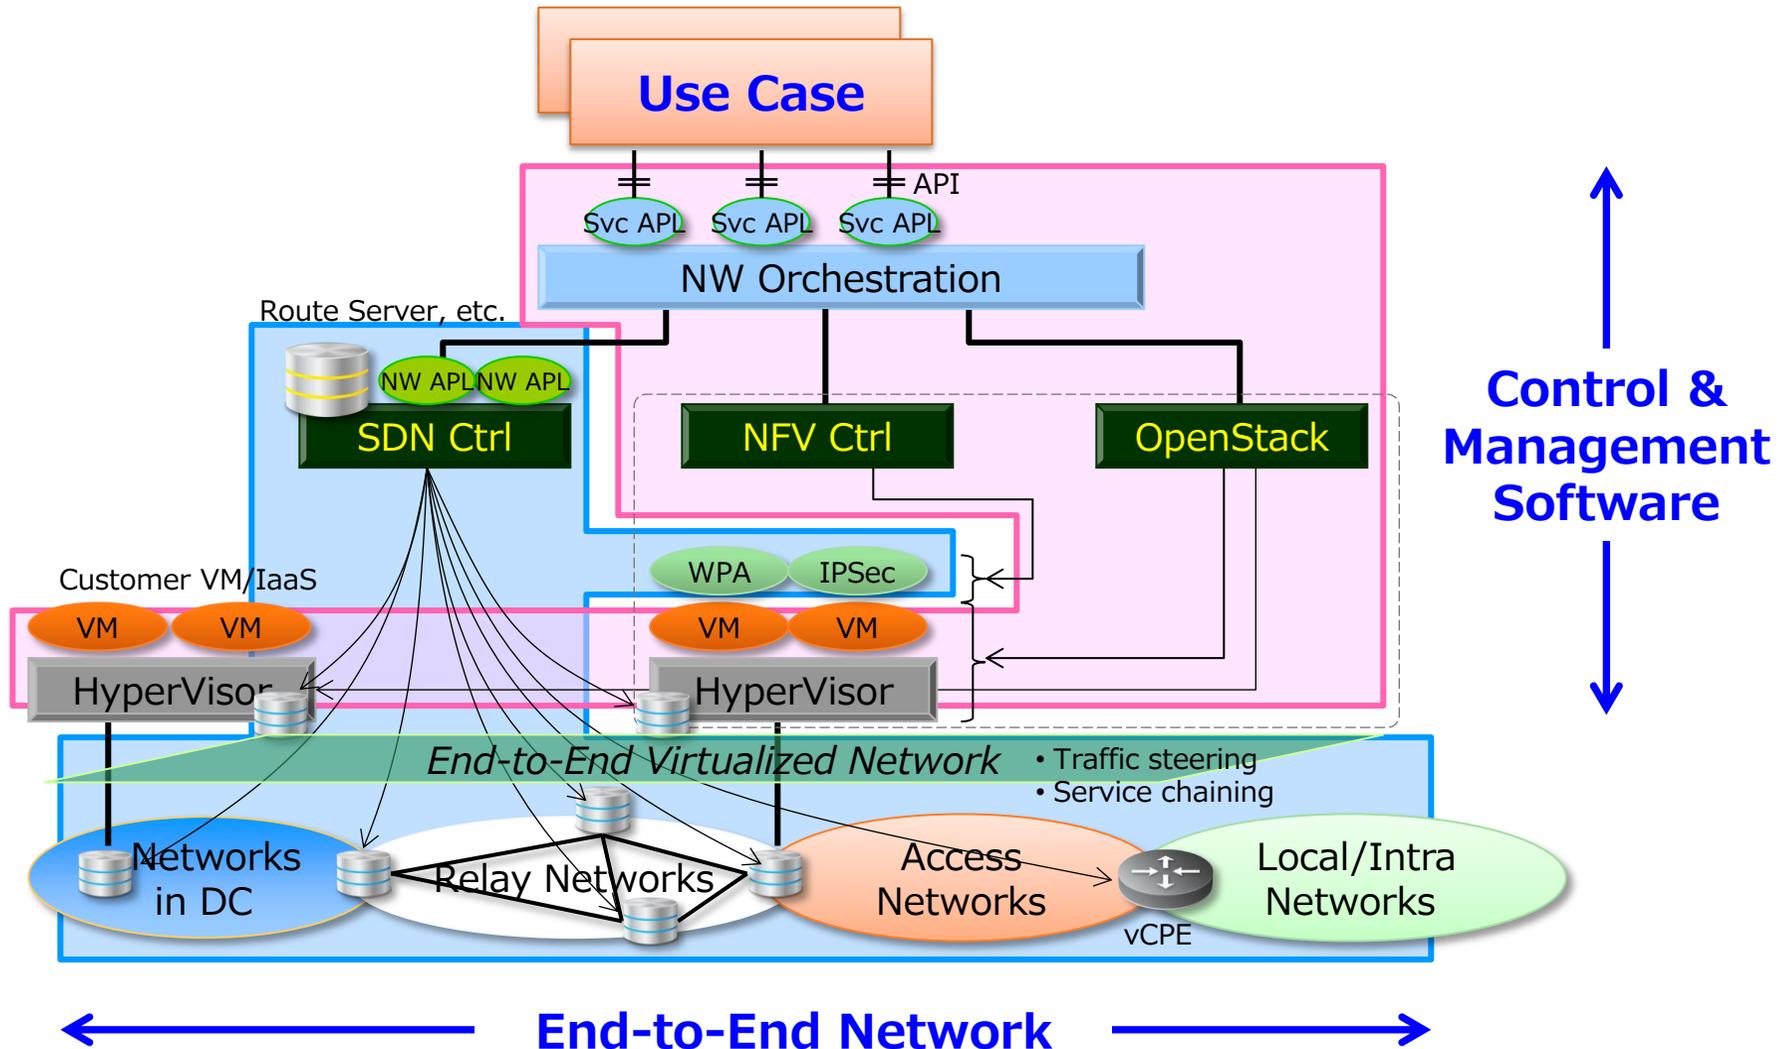

(NEAOSS Korea team visited OOL in February 2015)

■ Mission

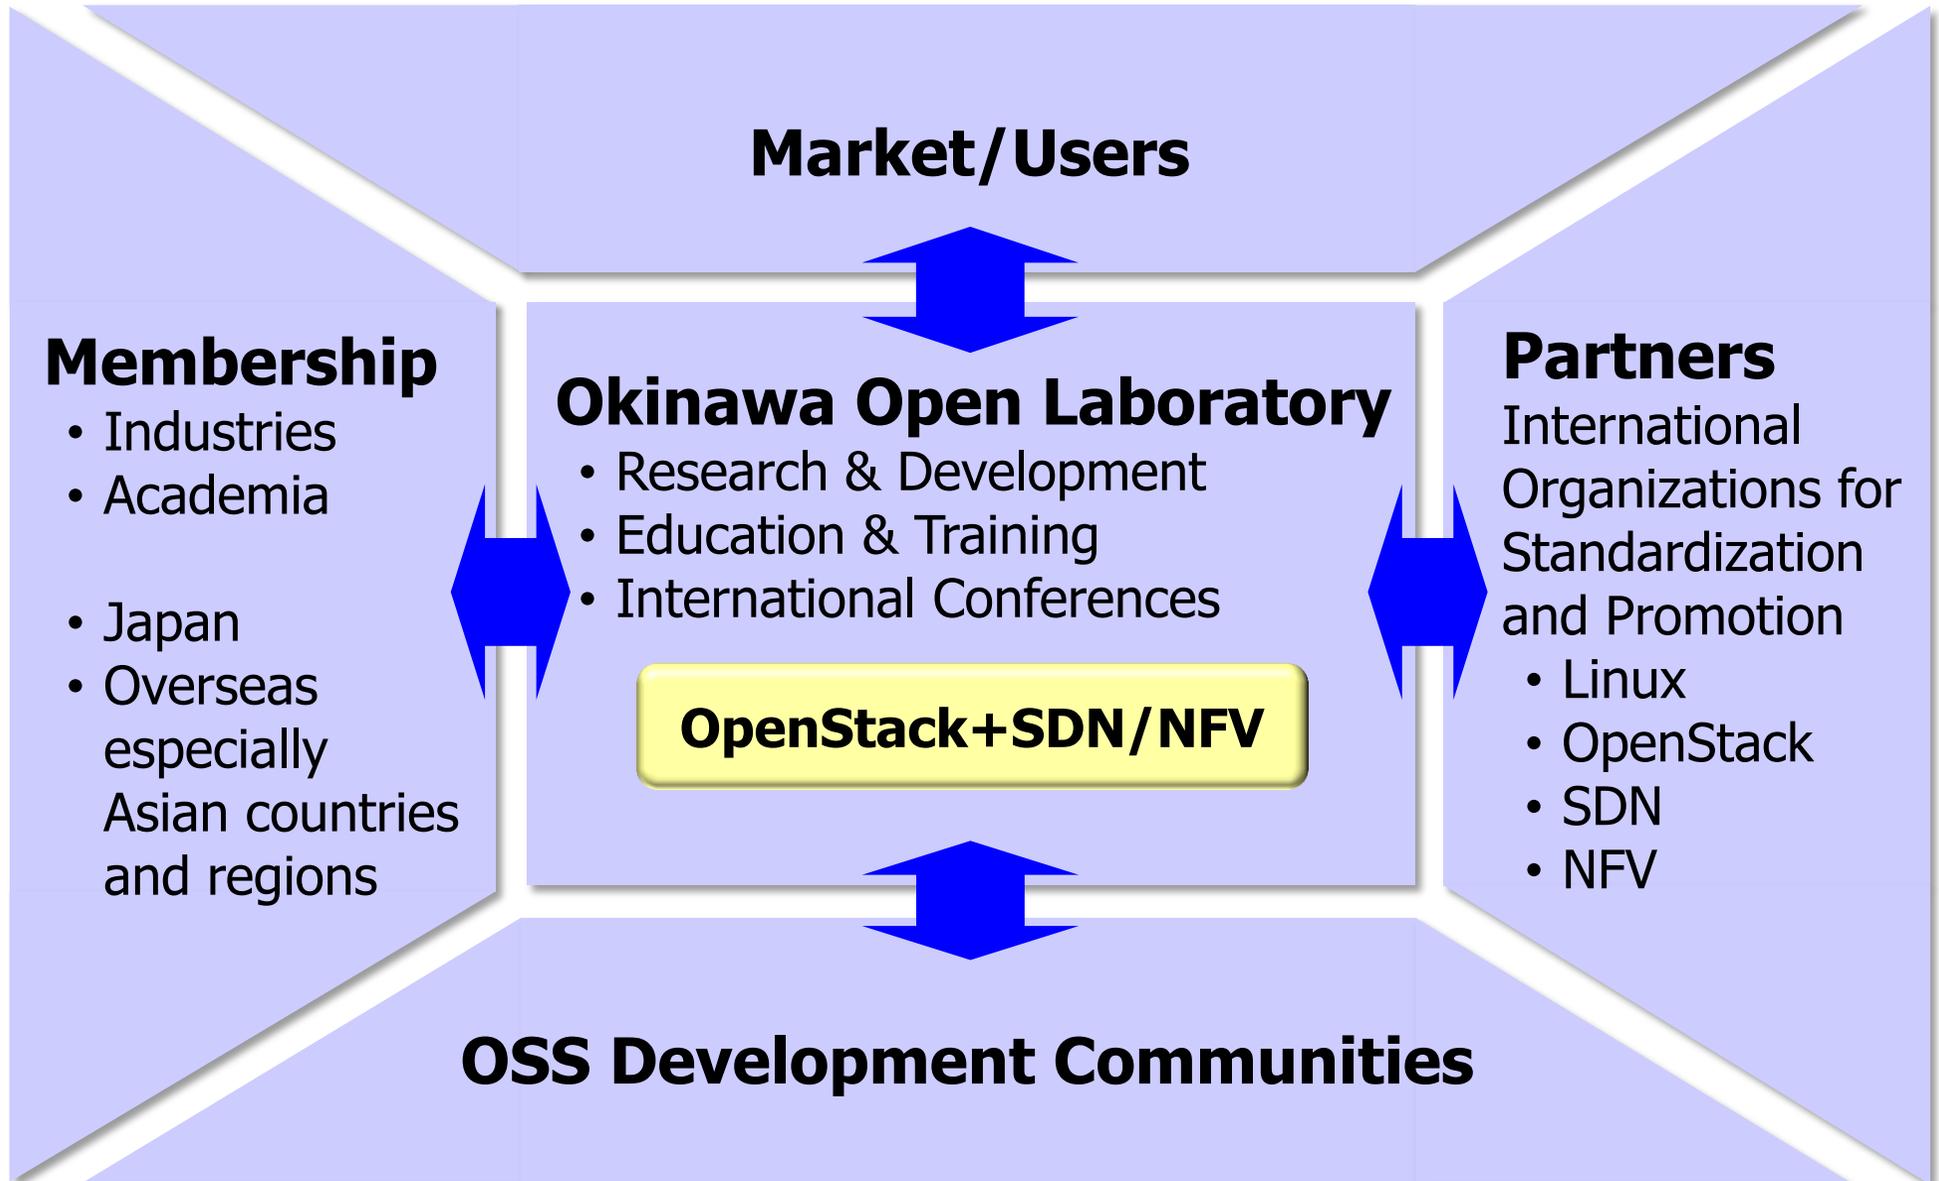

- Promote the practical application and dissemination of next-generation ICT platform technologies, especially OpenStack, SDN and NFV
- Promote the convergence of these technologies
- Search for use cases of these technologies

Scope of Target Technologies

- Next-generation ICT platform technologies

Activities

Membership List

(as of October 31st, 2015)

Board (5)

 MTT コミュニケーションズ	 日本電気	 イイガ	 伊藤忠テクノソリューションズ	 富士通
--------------------	----------	---------	--------------------	---------

Member (30)

 NTTPC コミュニケーションズ	 イーサイド	 NEC ソリューションイノベータ NEC ソリューションイノベータ	 イクスシアジャパン	 A10 ネットワークス	 F5 ネットワークスジャパン	 ブロcade コミュニケーションズ システムズ	 日立製作所
 日本 HP	 GLBB ジャパン	 NTT コムウェア	 日本アルカテルルーセント	 HUAWEI	 QualiSystems	 アラクサラネットワークス	 ブロードバンドタワー
 日本ラドウェア	 新日鉄住金ソリューションズ	 Ciena Corporation	 オーシーシー	 アドックインターナショナル	 沖縄データセンター	 オキット	 ネットワンシステムズ
 シスコシステムズ	 モノビット	 日商エレクトロニクス	 Atto Research	 Arbor Networks	 inwinSTACK		

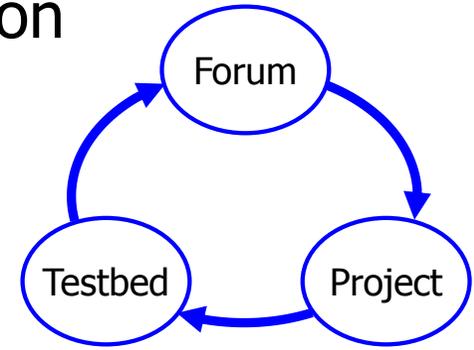

Fellow (13)

琉球大学工学部 琉球大学工学部	 沖縄電子ビジネス専門学校	 沖縄県立美栄工科高等学校	 The Institute for Information Industry (I3)	 鹿児島大学工学部	 東京大学大学院情報学環	 神戸情報大学院大学	 ETRI	 沖縄ゲーム企業コンソーシアム	 Open Networking Foundation
 国立研究開発法人 情報通信研究機構	 UnivetHub Loughborough/NTT UnKL	 OpenDaylight							

Total (48)

Research and Development

- Provide members with places for joint R&D activities
 - Forum ... Place for open communication and discussion
 - Project ... Place for design and implementation
 - Testbed ... Place for testing and validation
- Evaluate new technologies
 - Multi-Cloud/Inter-Cloud
 - Service Function Chaining
 - OpenDaylight/Onos
- Develop unique technologies
 - OF-Patch (OpenFlow based patch panel function)
- Study and search for use cases
 - Organize workshops with various industries (user side of ICT)
 - Tourism, Medical care, Education, Gaming, City planning, etc.
 - Study and search for use cases based on the discussion at the workshop, develop and conduct PoC testing for them

Education and Training

- Provide unique programs in cooperation with communities
 - Basic
 - Educate, train and secure ICT platform engineers who can make technical contribution to Cloud/SDN business
 - Raise up overall technical level
 - Beginners training programs
 - Classroom lecture seminars, Hands-on training
 - Advanced
 - Educate and train advanced ICT platform engineers who can play an active role in international open-source communities
 - Code review, BOF/Hackathon, Program contests
 - Specialist training programs
 - Supported by top engineers in industries and communities as mentors

■ Track Record

	No. of Events	No. of Attendees	Remarks
FY2013	14	1,240	
FY2014	12	980	
FY2015	15	1,350	Planned

(Note) Including international conferences

■ International Conferences

- Okinawa Open Days (Dec. 2013, Dec. 2014)
 - OOL's own international conference hosted by OOL
 - Held in Okinawa under the auspices of Okinawa Prefectural Government
- 6th ETSI NFV ISG Meeting (NFV#6) (May 2014)
 - Held in Okinawa in cooperation with OOL
- iPOP 2015 (Apr. 2015)
 - Held in Okinawa under the co-sponsorship of PIL, ISOCORE USA and OOL

■ International Exchange Meetings

- OpenStack/SDN Roundtable (Feb. 2014)
 - Held in Okinawa and organized by OOL
- Cloud/SDN Infrastructure Security Hackathon with NECOMA Project (Jun. 2014)
 - Held in Okinawa and organized by OOL
- 2015 Taiwan-Japan International SDN Workshop (Aug. 2015)
 - Held in Taipei, Taiwan under the co-sponsorship of III and NCTU
- 2015 Taiwan SDN 2nd Plugfest (Aug. 2015)
 - Held in Hsinchu, Taiwan under the co-sponsorship of Taiwan SDN Alliance, III and NCTU

Okinawa Open Days 2014

- Dates: Dec. 11 (Thu.) – Dec. 12 (Fri.)
- Venue: Okinawa-Jichikaikan, Naha City, Okinawa
- Host: Okinawa Open Laboratory
- Auspices: Okinawa Prefectural Government
- Co-sponsors: 10 companies and organizations
- Cooperation: 6 organizations
- Sessions and Events: More than 40
- Speakers: 11 speakers invited from overseas
- Language support: English-Japanese simultaneous interpretation
- Attendees: 554 in total

Okinawa Open Days 2015

Outline

Dates	December 14(Mon.) – 18(Fri.) 2015
Host	Okinawa Open Laboratory
Venue	Okinawa Jichikaikan (Asahi-machi, Naha, Okinawa)
Participation Fee	Free of charge (Prior Registration Required)
No. of participants	Approx. 700
Banquet	December 17, (Thu.) 18:00 ~ Okinawa Jichikaikan(5,000JPY :Tentative)
URL	http://www.okinawaopenlabs.org/en/ood2015

The SDN/cloud open-source community will gather in Okinawa!

Okinawa Open Days 2015

@Okinawa-Jichikaikan DEC. 14-18, 2015

Keynote

Dan Pitt
Open Networking Foundation

Kentaro Sasaki
Rakuten, Inc.

Neela Jacques
Executive Director, OpenDaylight

Dr. Ming-Wei Feng
Vice President and Director General,
SNSI of Ill, Taiwan

Schedule

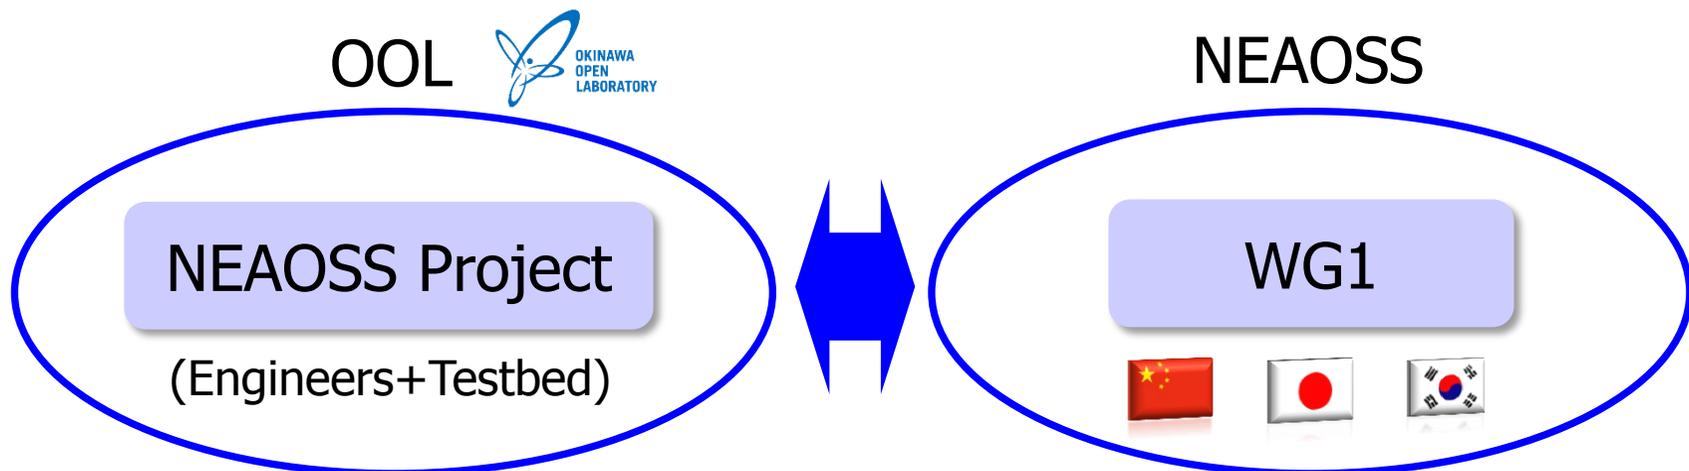

December	AM	PM
14 (Mon.)		Special Track
15 (Tue.)	Special Track	
16 (Wed.)	Special Track	Programming Contest
	SDSG	
17 (Thu.)	General Track	Special Track
	Exhibition	Banquet
18 (Fri.)	General Track	Special Track
	Exhibition	

*As of the end of Oct. 2015.

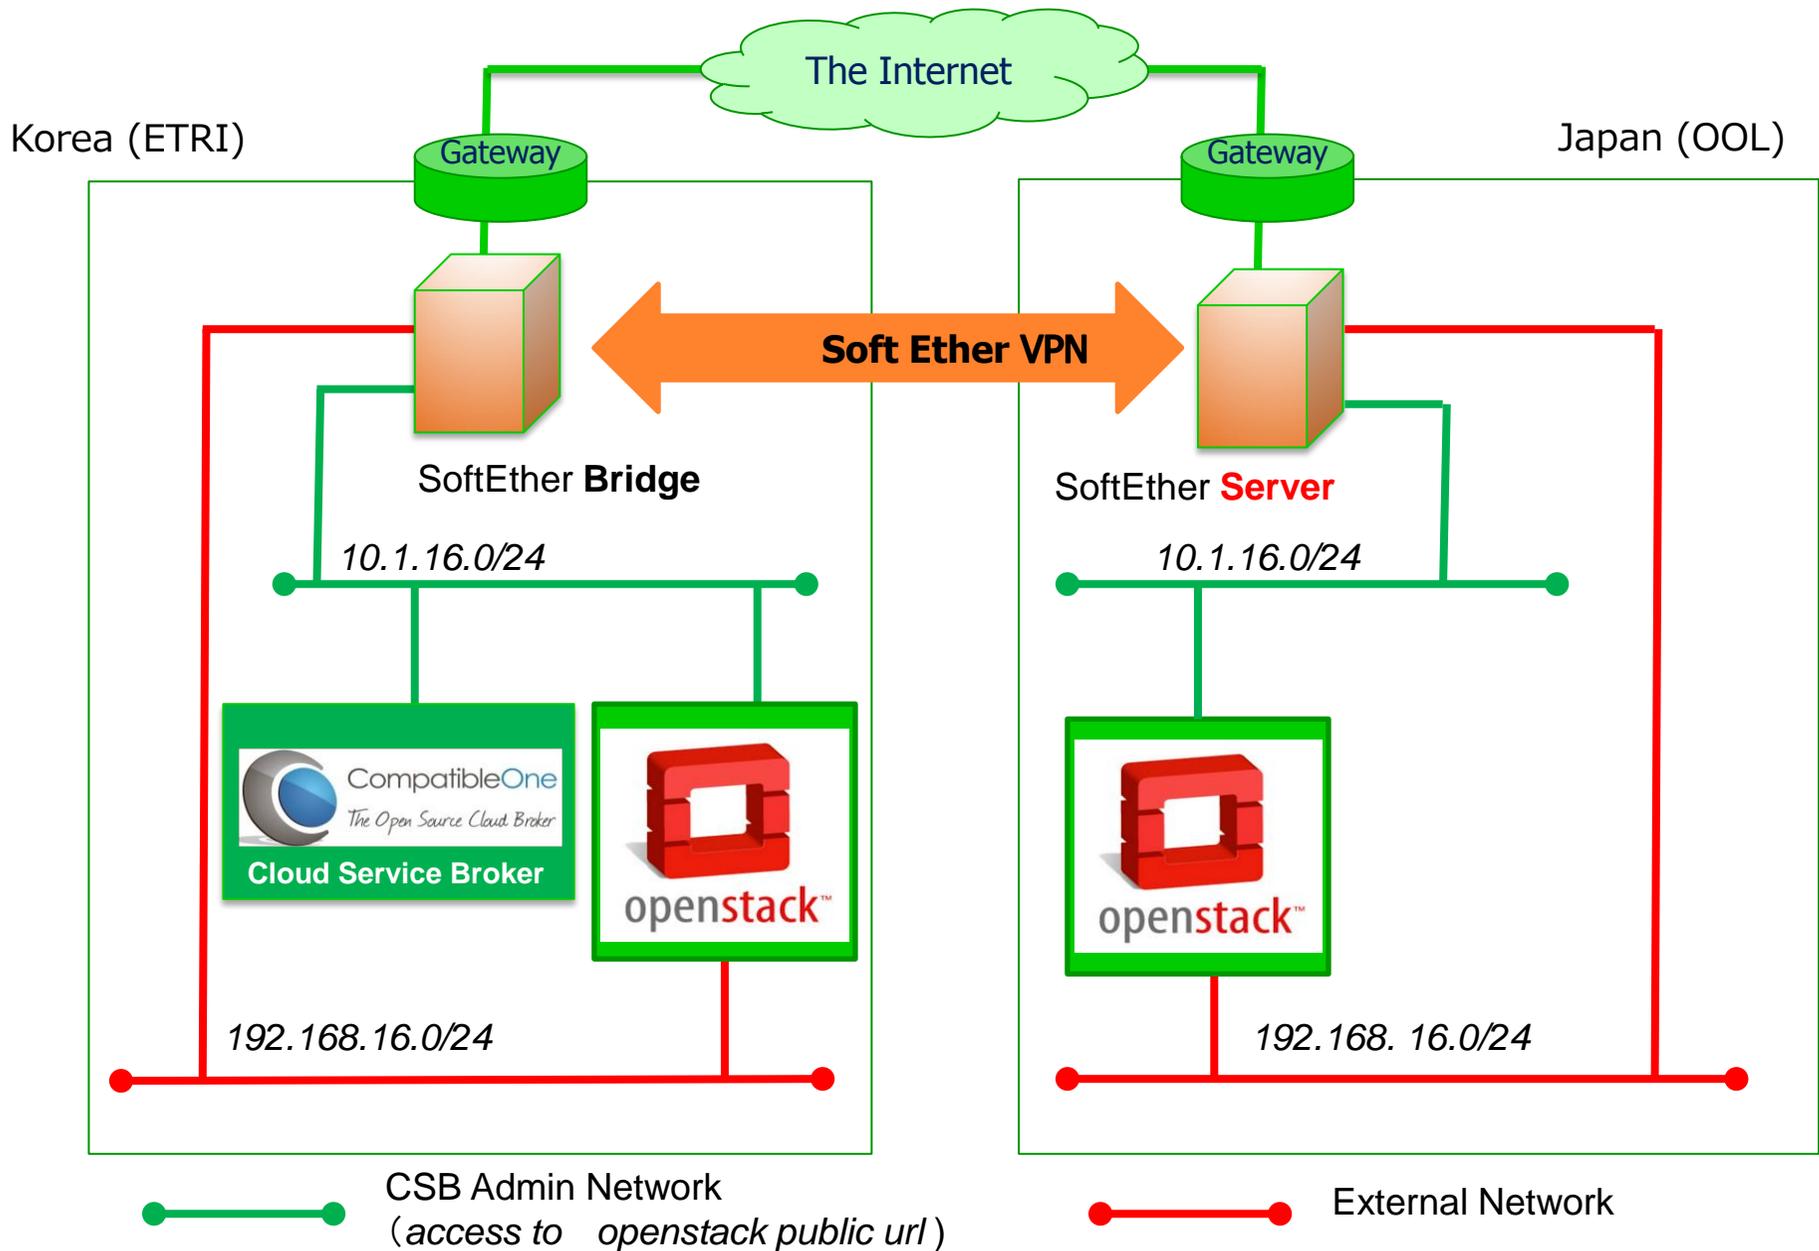

Come and Join us in Okinawa !!

Collaboration with NEAOSS

- Established NEAOSS Project in OOL to collaborate with NEAOSS WG1 in the field of Inter-Cloud technologies
 - CSB (Cloud Service Broker) technology
 - ⇒ Compatible One
 - OpenStack multi-cloud management technology
 - ⇒ OpenStack Cascading
 - OpenStack native application technology
 - ⇒ RACK (Real Application Centric Kernel)

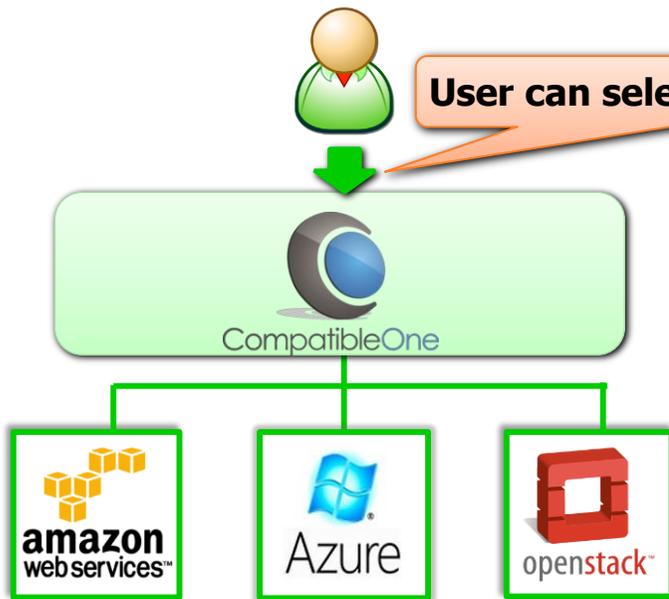

Network Connectivity

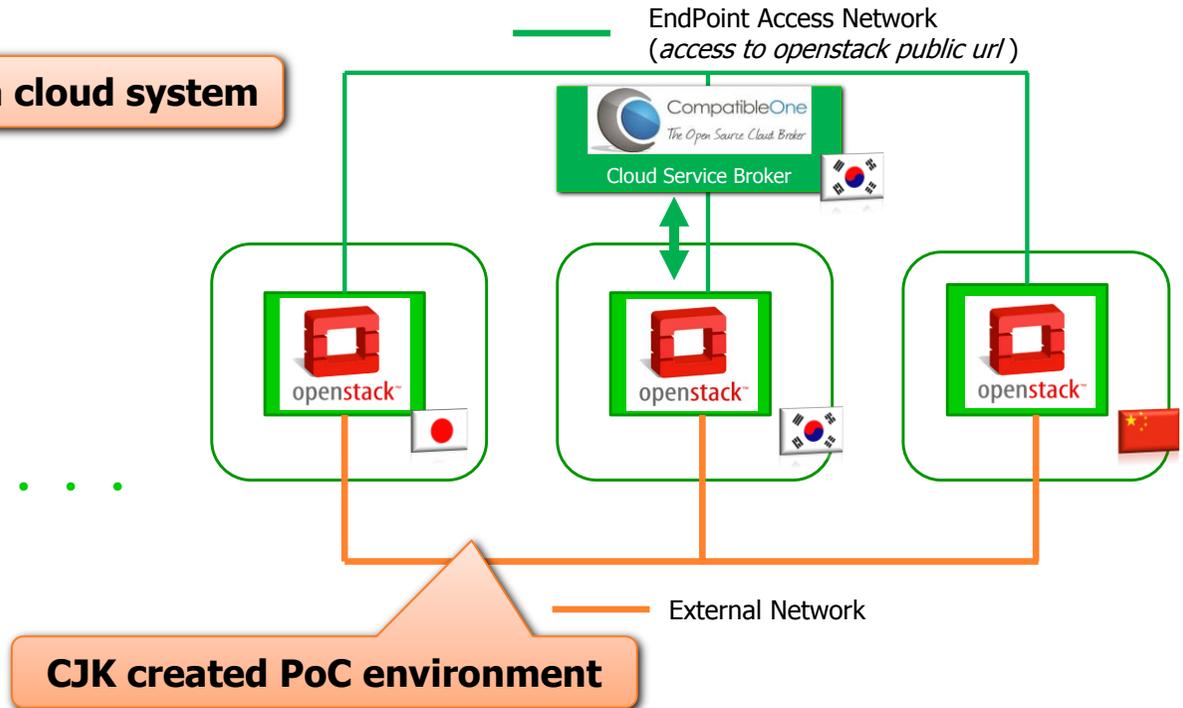

Compatible One Overview

- Compatible One is a new category of Inter-Cloud
- Compatible One can create single cloud service by communicate with many types of cloud, for example OpenStack, AWS, Google, etc.
- User can select the best cloud infrastructure to provide their application to end-user

Compatible One

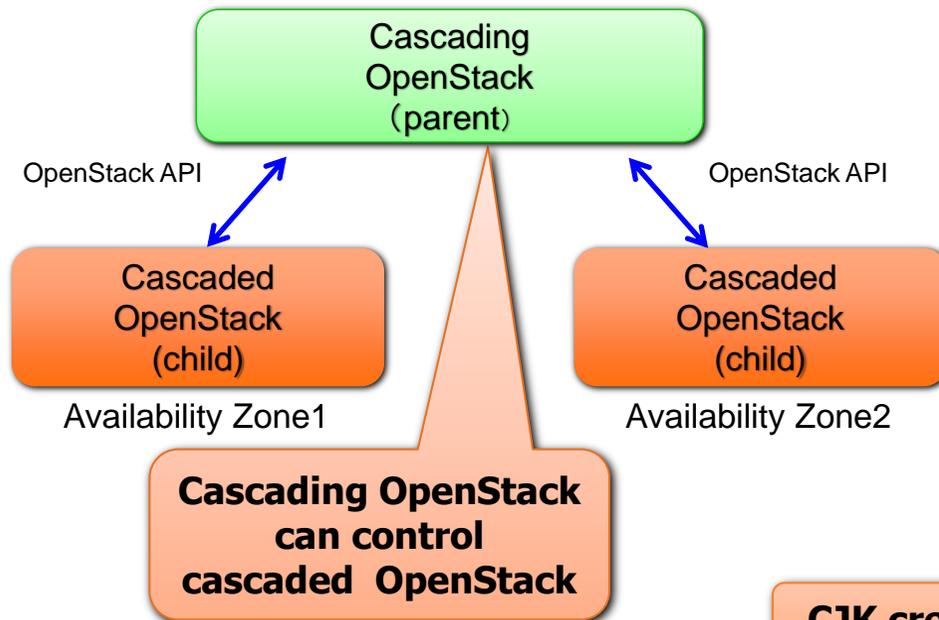

Inter-Cloud with Compatible One in CJK

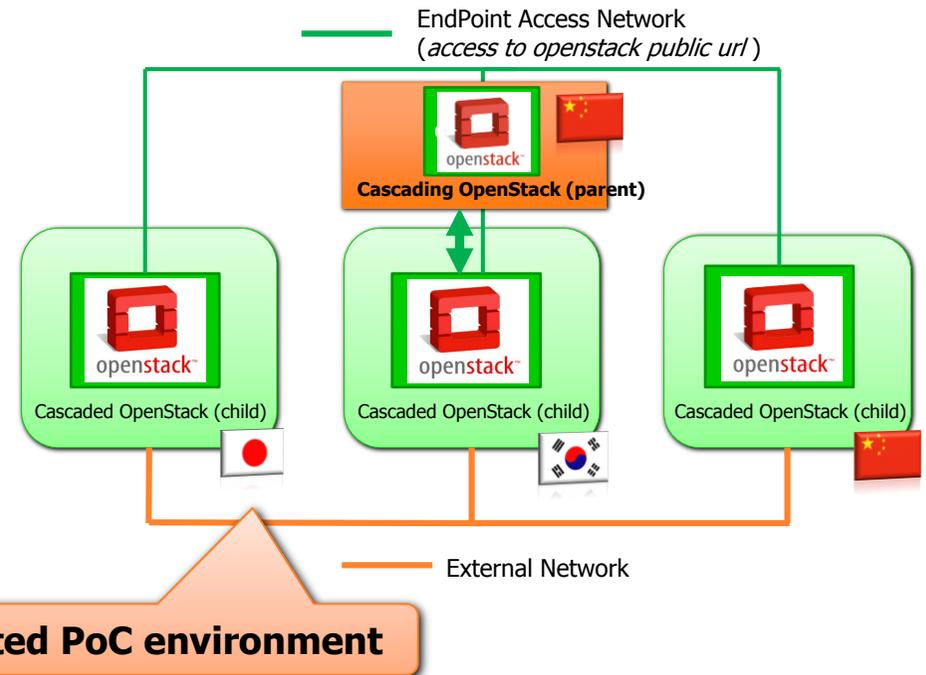

OpenStack Cascading Overview

- OpenStack Cascading is an OpenStack project that provides single OpenStack API endpoint over multiple OpenStack environments
- Using OpenStack Cascading, we have tested Inter-Cloud over CJK testbed
- User can manage and operate Inter-Cloud as single OpenStack

OpenStack Cascading System

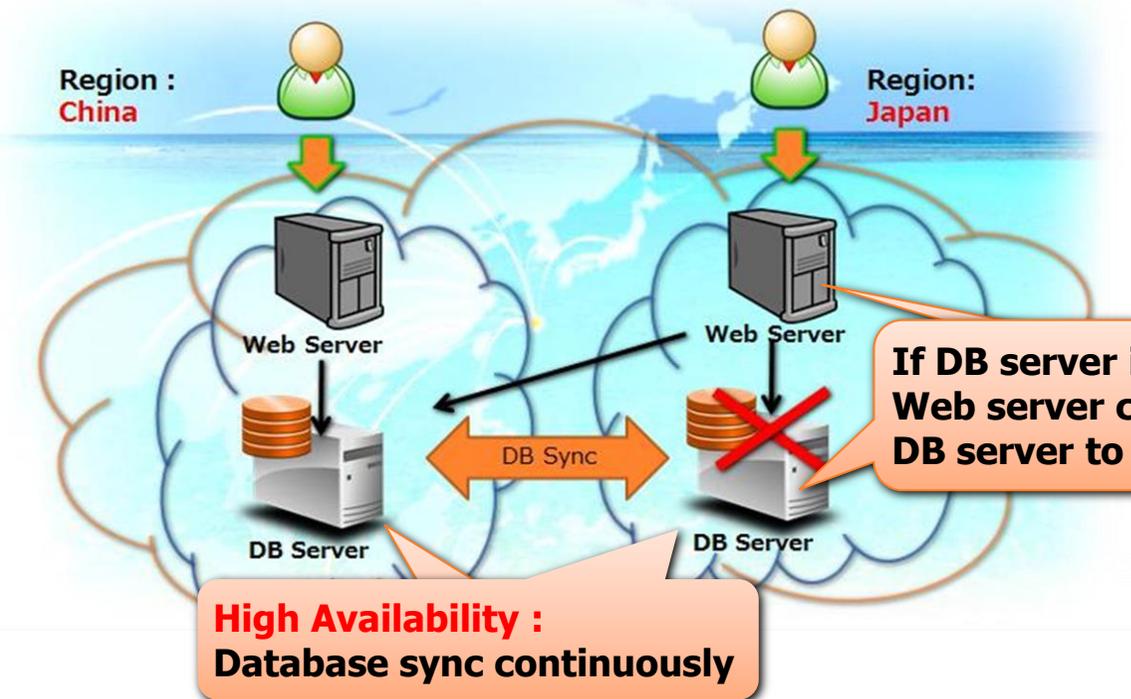

Inter-Cloud with OpenStack Cascading

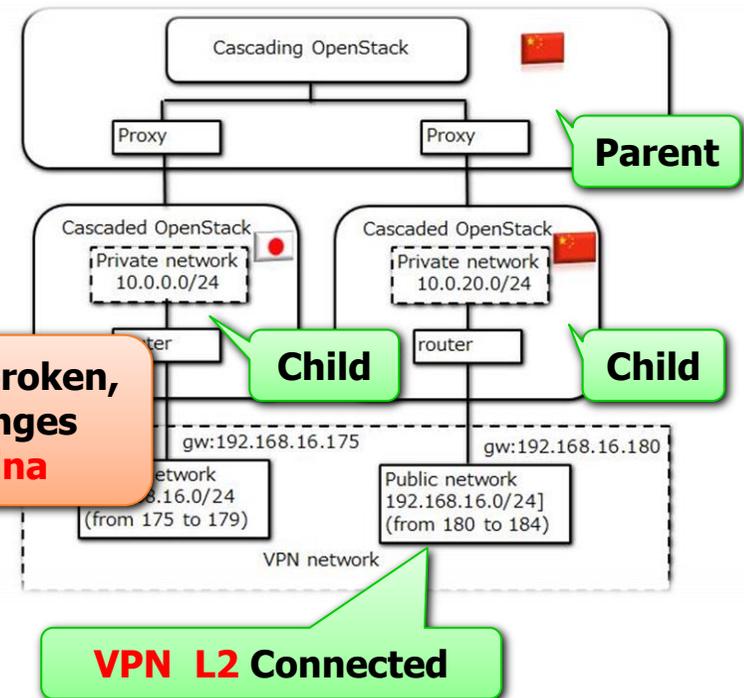

Use Case

- Building a Web server using a DB server with OpenStack Cascading
- DB servers are synchronized between China and Japan
- When the DB server in Japan is broken, the Web server in Japan will change the referenced DB server to China

Use Case of OpenStack Cascading Disaster Recovery

OpenStack Cascading Network Design

 You can see the demonstration at <https://youtu.be/7pVpE6YnMqE>.
