- Technical Committee Election Official

- Korea User Group organizer

: Kubernetes Docs SIG - Korean L10n reviewer

: Facebook Developer Circle Seoul Lead

...

  @ianychoi

오늘 다루고자 하는 것...

1. 오픈 소스 커뮤니티와 투표
2. 오픈 소스 커뮤니티에서 선거는 어떤 경우 이루어지는가?
3. 오픈스택 선관위를 통해 했던 활동 소개
4. 국내외 커뮤니티에서의 선거 & 투표 활동
5. 마무리

선거: 민주주의의 꽃

정치 뿐만 아니라 일상 생활에서도 필요한(?) 투표

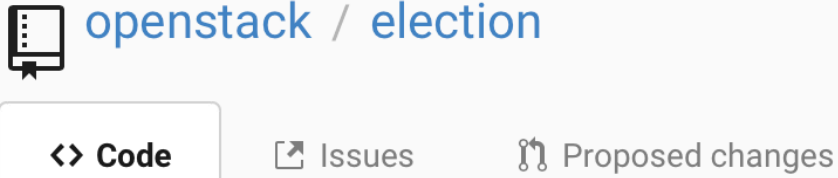

오픈 소스 커뮤니티와 선거

Elections

Nominations Closed

- 2020 Python Software Foundation Board Election
 - Voter application cut-off date: you must be a registered PSF member type with voting rights (supporting, contributing, managing) by May 31, 2020 AoE
 - Voting will begin June 8, 2020 AoE (Monday) and ballots must be cast before June 17, 2020 AoE (Wednesday)

글로벌 오픈스택 커뮤니티에서 이루어지는 선거

- Foundation Board of Directors
 - (오픈스택 재단에서 관리)
- Technical Committee
- User Committee
 - (2020년 8월, 기술 위원회에 통합)
- Project Team Lead (PTL)

위원회

재단 이사회

The Open Infrastructure Foundation is a non-profit 《whose purpose is to develop, support, protect, and promote》 OpenStack. It has a set of [bylaws](#) and a board of directors. The Foundation has three types of members, defined by the bylaws. Each of the types – Platinum, Gold and Individual – are represented on a Board of Directors. The maximum numbers of members of each type are eight, twenty four, and unlimited, respectively.

재단의 개별 구성원은 1년에 한 번(보통 연도가 시작될 무렵) 개별 이사에게 투표합니다. 재단에 가입하고자 하는 사람은 [Setup Your Open Infrastructure Foundation Account](#) 에서 더 많은 것을 배울 수 있습니다.

기술 위원회

[OpenStack 기술 위원회](#) (TC)는 OpenStack의 개방형 개발에 대한 거버넌스 및 기술 감독 기능을 제공합니다. 이들은 공식 OpenStack 프로젝트의 일 부분으로 신청하는 프로젝트를 검증하고 기술적 의사결정을 위한 최종 항소 위원회를 제공합니다. [기술 위원회 헌장](#) 은 TC에 대해 더 자세히 설명합니다.

13명의 TC 회원들은 1년 임기로 선출되며, 한 선거에서는 6개월 후 다른 선거에서는 7명이 선출됩니다. 이 항목은 ATC에 의해 선택됩니다. [Active Technical Contributors](#).

사용자 위원회

[OpenStack UC\(User Committee\)](#) 는 OpenStack 사용자를 위해 OpenStack 커뮤니티의 나머지 부분에 서비스를 제공합니다. [사용자 위원회 헌장](#) 은 UC에 대해 좀 더 자세히 설명하고 있습니다.

UC의 5명의 회원들은 한 선거에서 3명, 6개월 후에 다른 선거에서 2명, 1년 임기로 선출됩니다. 이 선택 항목은 사용자 기여자 auc입니다. [Active User Contributors](#).

공식 OpenStack 프로젝트

공식 OpenStack 프로젝트는 Technical Committee가 관리하는 프로젝트입니다. 공식 OpenStack 프로젝트는 [OpenStack 프로젝트 팀 페이지](#) 에 나열되어 있습니다. 가장 잘 알려진 OpenStack 프로젝트는 [프로젝트 네비게이터](#) 에 나열되어 있습니다. 프로젝트가 공식 OpenStack 프로젝트가 되는 것은 의무 사항이 아닙니다.

선관위 참여의 시작

- User Committee 선관위 Volunteer 모집

Subject [User-committee] UC Election - Looking for Election Officials - August 2019 elections 7/17/2019, 12:24 PM
To user-committee <user-committee@lists.openstack.org> ☆

Hi everyone!

We are getting ready for the August 2019 UC election and we need to have at least two Election Officials. I was wondering if you would like to help us on that process. You can find all the details of the election at <https://governance.openstack.org/uc/reference/uc-election-aug2019.html>

I do want to point out to those who are new that Election Officials are unable to run in the election itself but can of course vote.

The election dates will be:
August 5 - August 16, 05:59 UTC: Open candidacy for UC positions
August 19 - August 23, 11:59 UTC: UC elections (voting)

Please, reach out to any of the current UC members or simple reply to this email if you can help us in this community process.

Thanks,

OpenStack User Committee

Amy, John, Matt, Belmiro, and Joseph

From Me ☆

Subject Re: [User-committee] UC Election - Looking for Election Officials - August 2019 elections
To John Studarus [REDACTED] ☆

Hello John,

How were your last visit to Korea last week? Sorry that I couldn't see due to my travel. Let's discuss later in future.

By the way, I would like to volunteer this election official for upcoming UC election :)

With many thanks,

/lan

John Studarus wrote on 7/17/2019 12:24 PM:

User Committee 선관위를 통해 배울 수 있었던 것

- 선거를 진행하는 전체적인 방식
 - 총 선발 대상 인원
 - 입후보 기간, 선거 기간 등 확정
 - 메일링리스트에 공지 (입후보 기간, 선거 진행 알림, 선거 결과 공유 등)
- 출사표(Candidacy)를 자세히 읽어보게 됨
- 커뮤니티 내 핵심 구성원들과 친해짐(?)

From Natal Ngétal [REDACTED]
Subject [User-committee] UC candidacy.
To user-committee@lists.openstack.org ☆

Hi,

I saw a mail on openstack-discuss about the new user committee election. I'm Natal I principally contribute to the tripleo part. I have also contribute a little to oslo projects and gerty, for example. I'm really interested to candidate for this post, that can be seems weird, because I have started to contribute in october 2018 only. But I think that can be interesting for the project, a new eyes. I wish to implicate me more in the community. For example, I want to organize local meetup regularly, go to the OpenStack summit and ptg and started to give talk and write articles on the project. I wish also meet more the customers and work with they to improve the project. Understand the customers problems. With this role that can be more easy. For me, that can be also really interesting to learn more the project and the community. That can be also really source motivation and that can help me for my work.

My gerrit profile:

Hello,

The upcoming round for OpenStack's technical elections (both PTL and TC) is set to happen in September this year[1].

We would like to encourage anyone interested to volunteer to administer the elections, especially as some of our leaders periodically become ineligible by way of being nominated themselves. While elections have historically been handled by a number of volunteers, the intention was for this to NO

Change 678364 - Merged

Add Ian Y. Choi as an election official

I would like to apply as an election official [1].

Technical Committee / PTL 선관위: 필요로 하는 지식

- 선거에 대한 정적 웹페이지 / 도구 / 문서 관리를 위한 지식

Preparation

As early as possible but at least a month before election starts:

- Edit elections details (timeline, cycle timeframe):
 - `edit configuration.yaml`
- Prepare new election, e.g.:
 - `tox -evenv -- create-directories`
- Commit to update website
- Update Release Schedule

A couple of weeks before election starts:

- Send *PTL Election Season* email
 - `tox -e venv -- template-emails elec`

* lpetrut (~lpetrut@86.124.137.218)님이 입장하였습니다
* 이제부터 대화명은 ianychoi 입니다
ianychoi fungi, not sure where there are some logics to check whether one winner from
candidates for a project set as True to reflect election result from civs. In my
opinion, it would be great if we implement such logics not to forget to flag one
winner as True
ianychoi And do you think just my +2 with +A would be a good idea? I am now open..
fungi ianychoi: yes, that's basically what the todo is saying there in the patch. i think the
routine might be designed to also do something when elections are not closed
yet, but i don't think it's useful until elections close so i agree we're better off just
using the closed election structured data we have and not try to count the number
of candidates in the candidates tree
fungi this was more of a hotfix to try not to disturb the code which is already there any
more than necessary, but ultimately that entire function should be rewritten
fungi i wanted to get something up so that i could correctly generate the updated patch
to governance for adding in the telemetry election result, and to make sure there
was nothing else we were missing
* evrardjp님이 끝내셨습니다(Quit: Quit!)
* evrardjp (~evrardjp@2a02:a03f:3e08:5101::154)님이 입장하였습니다

ianychoi: yeah, hberaud pointed it out to me too. i'll work with the openstackid-resources maintainers to figure out what's changed as soon as my morning meetings/errands are done

fungi, I already have sent an e-mail to Sebastian and he replied - let's see..

oh, excellent, i also reached out to him a few minutes ago and he's looking into it

Fortunately, I have discussed with openstackid issues regarding I18n team activities previously.. :)

yeah, they've been doing some major updates to openstackid and the openstackid-resources api in the past week, so i suspect something regressed

Aha thank you for sharing more contexts

but sebastian is definitely the best one to be able to find the problem

I definitely agree with this

ianychoi: <https://review.opendev.org/753610> seems to be the regression fix

should be live shortly

Great!

yep, working now

I put "recheck" for all current candidate patches

thanks!

Subject [all][elections][tc] Technical Committee Election Results

To openstack-discuss@lists.openstack.org ★, openstack-announce@lists.openstack.org ☆

Please join me in congratulating the 4 newly elected members of Technical Committee (TC).

Dan Smith
Ghanshyam Mann (gmann)
Jay Bryant (jungleboyj)
Kendall Nelson (diablo_rojo)

Full results:
https://civs.cs.cornell.edu/cgi-bin/results.pl?id=E_f3d92f86f425

Election process details and results are also available here:
<https://governance.openstack.org/election/>

Thank you to all of the candidates, having a good group of candidates helps engage the community in our democratic process.

Thank you to all who voted and who encouraged others to vote. We need to ensure your voice is heard.

Thank you for another great round.

--
Jeremy Stanley
on behalf of the OpenStack Technical Election Officials

Condorcet Internet Voting Service

Poll Results: OpenStack Wallaby Cycle Technical Committee Election Poll

Poll description

Please rank OpenStack Technical Committee candidates so that your preferred representatives appear first/highest in the list. Lower rank numbers indicate higher preference, with "1" as the most preferred. These are not cumulative points. If you have no preference between some candidates, you can give them an equal ranking value. The four candidates with greatest Condorcet consensus will be chosen for the available seats.

Result

1. **Ghanshyam Mann (gmann)** (Condorcet winner: wins contests with all other choices)
2. Dan Smith loses to Ghanshyam Mann (gmann) by 84-64
3. Jay Bryant (jungleboyj) loses to Ghanshyam Mann (gmann) by 84-62, loses to Dan Smith by 89-67
4. Kendall Nelson (diablo_rojo) loses to Ghanshyam Mann (gmann) by 81-69, loses to Jay Bryant (jungleboyj) by 73-69
5. Radosław Piliszek (yoctozepto) loses to Ghanshyam Mann (gmann) by 112-36, loses to Kendall Nelson (diablo_rojo) by 95-54
6. Amy Marrich (spotz) loses to Ghanshyam Mann (gmann) by 101-53, loses to Radosław Piliszek (yoctozepto) by 69-68
7. Erno Kuvaja (jokke_) loses to Ghanshyam Mann (gmann) by 114-40, loses to Amy Marrich (spotz) by 80-49

Result details

Hide details

	1	2	3	4	5	6	7
1. Ghanshyam Mann (gmann)	-	84	84	81	112	101	114
2. Dan Smith	64	-	89	92	100	100	100

덕분에 다른 오픈 소스 선거 활동도 잘 이해할 수 있었고

Subject Poll: Kubernetes 2020 Steering Committee Election

9/15/2020, 3:21 AM

Reply to election@kubernetes.io ☆

To Me ☆

A Condorcet Internet Voting Service poll named **Kubernetes 2020 Steering Committee Election** has been created. You have been designated as a voter by the poll supervisor, Kubernetes Elections (election@kubernetes.io).

Description of poll: Welcome to the 2020 annual Kubernetes Steering Committee procedures, can be found [on the 2020 election page](#).

All eligible [voters](#) for this election should have received individual ballots by email. If you do not receive a ballot, your vote will be invalidated.

The Steering Committee Election is a preference election. Please arrange the calendar for the election. PLEASE NOTE: "No opinion" is also a voting option if you do not feel comfortable voting.

To report issues with this election, need a replacement ballot, or ask questions, contact the poll supervisor.

Kubernetes Elections

This document will outline how to conduct a Kubernetes Steering Committee Election. See the [Steering Committee Election Charter](#) for more information of how the committee decides when to have elections, eligibility for voting, eligibility for candidacy, maximal representation, etc.

Steering Committee chooses Election Officers

- Steering Committee selects the Election Officers
- Dates should be in UTC time, use a [world clock service](#) in documentation and email announcements so that end users see the correct time and date based on where they live.
- The steering committee was structured in a way so that it does not turn over all at once with staggered terms, therefore all new elections are for two(2) year terms

Election Officers select the following dates

- Recommend the month of October to not collide with a release or end of a quarter.
- Nomination and Voter Registration period start
- Nomination period end (At least a two week period)
- Voter Registration Deadline
- Election period start
 - It takes time to create the poll in CIVS, so don't give a specific hour, instead say "Morning of the 10th" or something vague.
- Election period stop
 - CIVS needs to be manually stopped, so an actual person needs to click for the poll to stop, so this needs to be a human friendly time

국내 커뮤니티 선거 활동도 되돌아보게 되었습니다

Re: 2017 차기 대표 후보 등록

by sukso96100 » 2017/01/08 Sun 1:28 am

안녕하세요. 대표 후보로 등록하게 된 한영빈 입니다.
저는 약 4년 전 즈음에 부천시역 우분투 사용자 간담회에 참석한 것을 시작으로 우분투 정기 나눔 모임에 지속적으로 참여하면서 우분투 커뮤니티 활동을 해 왔습니다.
누구나 그렇듯, 우분투를 처음 접할때만 해도, 설치 잘못해서 다시 처음부터 우분투 설치하면서 많은 어려움을 겪었고, 그럴 때마다 우분투 커뮤니티로부터 많은 도움을 받았고, 또한 많이 배웠습니다. 그리고 정기 나눔 모임에서 발표를 할 수 있게 해 주며, 많은 사람들 앞에서 발표를 해 볼 수 있는

선거 & 투표: 오픈 소스 커뮤니티에 의견을 나타내는 방법

- 오픈 소스는 오픈된 소스 / 프로그램 사용만을 의미하지 않습니다.
- 국내에도 많은 분들께서 직접 오픈 소스로 공개하거나, 글로벌 오픈 소스에 컨트리뷰션도 많이 하고 계십니다.
- 또 다른 방법, 커뮤니티에 선거 및 투표를 통해 의견을 나타내보시면 어떨까요?

Finished!

THANK

YOU

very much!
