① Open Source, It's new ?

Open Source Definition

(Open Source Initiative – <http://opensource.org>)

01. Free Redistribution
02. Source Code
03. Derived Works
04. Integrity of The Author's Source Code
05. No Discrimination Against Persons or Groups
06. No Discrimination Against Fields of Endeavor
07. Distribution of License
08. License Must Not Be Specific to a Product
09. License Must Not Restrict Other Software
10. License Must Be Technology-Neutral

Development based on the sharing and collaborative improvement of software source code has a history essentially as long as software development itself. In the late 1990s, interest and participation in this phenomenon increased markedly with mainstream recognition of Linux [in publications like Forbes](#) and [the release of the Netscape browser's source code](#).

Since 1991

The Rise of Open Source: Linux and OpenStack

Linux

2013

94% of the world's top 500 supercomputers run Linux

15 million lines of code are contributed by 8,000 developers and 800 companies

2012

Linux-based Android leads the worldwide smartphone market

2000

IBM announces \$1B investment in Linux

1999

IBM announces an extensive Linux project

1998

IBM, Compaq and Oracle publicly announce support

1995

Broad hardware support rapidly ramps adoption

1993

More than 100 developers contribute code to Linux

1991

The Linux kernel is developed to access large UNIX servers independent of an operating system

OpenStack

2013

IBM unveils SmartCloud Orchestrator, a new private cloud offering based on OpenStack

Community of 8,200+ individual members representing 1,000 organizations

2013 predicted as the year of "OpenStack Services Firms"

2012

IBM, Rackspace, RedHat, AT&T and others establish the OpenStack Foundation

Leading cloud technology companies as well as large ISVs bet on OpenStack for their core business

2011

Head and shoulders above the rest with respect to contributors, members, followers and community

2010

One among many competing open solutions for cloud infrastructure

OpenStack comes out of the gate with favorable Apache license terms

5 ways to make money with open source

Sell Support Contracts

Sell Value-Added Enhancements

Sell Documentation

Sell Binaries

Sell Your Expertise as a Consultant

② Why Open Source

OPEN SOURCE BUSINESS IMPACT IS CLEAR

90%

of respondents say Open Source Improves:

// TODO

TALK OPENLY
DEVELOP OPENLY

For companies committed to open source.

Linux is a cancer that attaches itself in an intellectual property sense to everything it touches.

(Steve Ballmer)

OLF EDGE

2019

5G, AI, Robot

ROS

Key Value for Future Techs in Samsung

1. OPENNESS

- Source Code and Project Open
- Communities Participation

2. Collaboration

- Global Open Source Leading
- Korean Association

3. Development Culture

- Internal Infrastructure
- Inner Source Program

① Openness – Source Code and Project Open

- 108 Repositories so far (20+ project increase in every year)
- <https://github.com/samsung> (free for everyone under Apache 2.0 License)
- Expanding to AI, 5G, Robot, and more future technologies

- Official website (opensource.samsung.com)
- About US, Project and Community Announcements

① Openness – Communities Participation

Supporting and Sponsoring for local open source communities

- AI, Data, Robot communities at SOSCON 2019

② Collaboration – LF Networking

Networking Umbrella Project under Linux Foundation ('18.6)

- 8 Projects such as ONAP (Open Network Automation Platform), OPNFV (Open Platform for NFV)
- Board Member with 32 global 5G leading companies
- Samsung outstanding contributions in LF Spotlight Member News ('19.9)

[Board Members]

Ranking	Company	Ranking	Company
1	AT&T	6	Nokia
2	Samsung	7	China Mobile
3	Huawei	8	AMDOCS
4	Ericsson	9	ZTE Corp.
5	IBM	10	Intel

['19 ONAP Contribution Ranking]

'19.10.11, (Ref.: <https://onap.biterg.io/>)

② Collaboration – LF EDGE

Real-Time local Service Framework under Linux Foundation ('19.1)

- Active Projects : AKRAINO (MEC Network), Home Edge (Home Services), EdgeX Foundry (Smart Factory)
- Board Member with 35 global companies

[MEC Project]

[Home Project]

[Smart Factory Project]

arm

SAMSUNG

FUJITSU

[Board Members]

② Collaboration – ROS2 TSC

※ ROS: Robot Operating System

Robot Operating System

- Robot de-facto open source solutions (3,700 developers, 521 repo, 260,000 commits)
- Elected as a new TSC (Technical Steering Committee) members (^19.8)

이노베이션아카데미

③ Development Culture – Internal Infrastructure

- 50,000+ repositories, 17,000 active developers
- Globally 220,000 Samsung employees

Open Infra

Collaborative Development across
different business units

Open Communication

Collective Intelligence Platform

③ Development Culture – Inner Source Program

Use of Open Source best practices for SW development within the confines of an Org. ('18~)

- 99% equal to open source except internal code sharing
- ISC (Inner Source Commons) Collaborations and Participations

[Active Members]

[Inner Source Day, '19.10.]

④ Concluding Remarks
