to enlightenment- □

Dear all,  
this is Daniel Juyung Seo.

I found one doxygen mistyping in elm\_theme.c  
elm\_theme\_extension\_add() uses eina\_list\_append() not eina\_list\_prepend().  
So it should be changed to 'Appends'.

```
-- elm_theme.c 2010-06-14 21:35:07.000000000 +0900
+++ elm_theme_fix.c 2010-08-11 23:37:02.000000000 +0900
@@ -335,7 +335,7 @@
 }

```

```
/**
- * Prepends a theme extension to the list of extensions.
+ * Appends a theme extension to the list of extensions.
 *
 * @param th The theme to add to, or if NULL, the default theme
 * @param item The Edje file path to be used

```

Thanks.

Best Regards,  
Daniel Juyung Seo.

In svn.

thanks.

Regional Recruiter, YouTube APAC at Google

Recruiter Dec 3

**to Daniel: Hello from [redacted] Google APAC Staffing**

Hi Daniel,

My name is [redacted] and I've been part of Google APAC Staffing for the past 4 years.

I was impressed your Engineering Manager experience at Samsung and being the Enlightenment Committer for open source projects and wanted to share this exciting opportunity with YouTube:  
<https://www.google.com/about/careers/search#!t=jo&jid=60295001&>

This role will be the key to the success of YouTube in Korea and will be involved in the wide range of responsibilities of tech & business depending on your background and interest. If interested, please let me know your availability for a quick 15-20min phone call and the number I can reach you on so we can discuss more. Of course there is no obligation and our communication is confidential.

Thanks for reading through! I look forward to your reply.

The image displays the Algorithm Visualizer website and its GitHub repository. The website (left) features a navigation menu on the left, a main heading 'Algorithm Visualizer', a description 'Algorithm Visualizer is an interactive online platform that visualizes algorithms from code.', and a 'Contributing' section. The GitHub repository (right) shows the README.md file with a list of repository links.

**Algorithm Visualizer**

Algorithm Visualizer is an interactive online platform that visualizes algorithms from code.

contributors 22 license MIT

Learning an algorithm gets much easier with visualizing it. Don't get what we mean? Check it out:

[algorithm-visualizer.org](https://algorithm-visualizer.org)

**Contributing**

We have multiple repositories under the hood that comprise the website. Take a look at the contributing guidelines in the repository you want to contribute to.

- `algorithm-visualizer` is a web app written in React. It contains UI components
